

How does the aircraft feel? Stalls and Spins Info. you need to know.

As all pilots know through their training, stalls and spins, if mismanaged, can be lethal. Fred Adams, FAASTeam Representative, Career Pilot and CFI, will discuss stalls and related factors we tend to mismanage in a our day to day flying.

Jay Flowers, FAASTeam Program Manager, Career Pilot and CFI, will discuss Spins. How did that happen? Senarios and plans of action that will help you reduce the risk of entering a Spin. Jeffry Boe, FAASTeam Program Manager, Career Mechanic, will be available to talk on any maintenance questions you may have.

Directions: Bismarck Aero Center is located on the West side of the Bismarck Airport off of Airport Expressway and Hwy 1804. From Airport Road, take the second left turn onto the airport. Building 53 will be on your left about one block from main highway.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
